

2025-03-25 Group 4

Scrum Master:
Quinton Grant

Attendees:

- Quinton Grant
- Micah Peltier
- Stephen Laing
- Shawn Crook

Agenda:

- No Code changes from the week before to look at
- Code Changes
 - Expanding the scope of the file to have 250 lines instead of 100
 - Making sure the program loader will NOT accept any more than 250
 - Word size will have to be updated in Memory and CPU and the GUI should reflect that
 - Support of both old and new files
 - Opening multiple files through having more than one window instance open.

Action Items:

- Stephen is working on getting multiple windows to open and have multiple programs.
- Micah is going to work on supporting both old and new files and getting the loader to work both ways.
- Shawn is going to get the cpu to work with the longer memory address and word size.
- Quinton Grant will work on getting the memory to load with more addresses and the new word size, and to make sure the GUI will work with the expanded memory.
